PROFILE

I am a web developer with over four years of experience in the field. I have worked in multiple different programming languages and frameworks including PHP, Python and JavaScript. I am also familiar with various databases including MySQL and MongoDB. I am a quick learner and I am always looking to improve my skills and learn new technologies. I am also a team player and I am able to work well in a team environment. I am looking for a challenging role in a company where I can continue to learn and grow as a developer.

SKILLS

Git

PHP

Python

Javascript

EXPERIENCE

Freelance Web Developer

socialrabbit.Inc

December 2022 - Present

I'm currently continuing my freelance work with multiple clients helping them build ecommerce platforms and many other custom web solutions for their companies

Manager Website Development and Maintenance

Medfuture Global - Colombo

June 2022 - December 2022

I started by fixing bugs and modifying their CATS system, then participated in migrating it from CakePHP to Laravel with a foreign team. Beyond that, I developed web applications using PHP, various frameworks, and MVC architecture, along with secure payment gateways.

Web Developer

Core IT Solutions - Colombo

January 2021 - June 2022

My web development experience at Core IT Solutions involved diverse projects. I built websites using various technologies like HTML, CSS, and JavaScript. I also participated in the entire development lifecycle, collaborating with designers and back-end developers to create secure and scalable web applications, including a custom content management system.

Trainee Backend Engineer

Elegant Media - Colombo

June 2020 - January 2021

As a backend developer at Elegant Media, I ensured optimal system performance by maintaining services and databases. I fostered interoperability by developing a RESTful API and improved code quality through version control and analytics-driven optimization. Additionally, I actively debugged and collaborated with the front-end team for successful system integration.

Freelance Wordpress Developer

socialrabbit.Inc

June 2016 - June 2020

I worked as a Freelance wordpress developer during my college days.
